

# How to Change Your Password

It's recommended to change your passwords every few months to enhance security. Updating your password in LLumin CMMS+ is straightforward and easy.

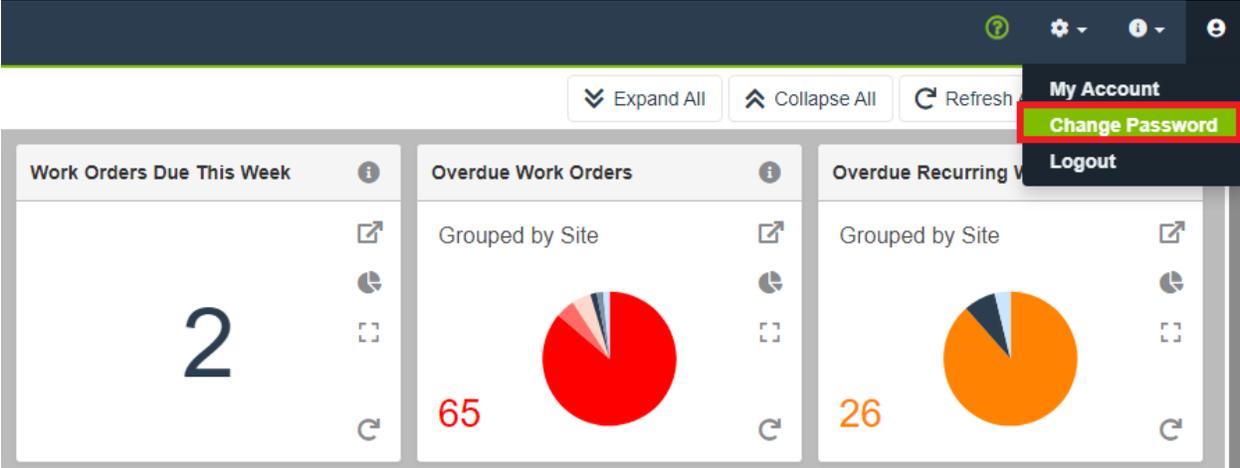

## Instructions

To change your password, perform the following steps:

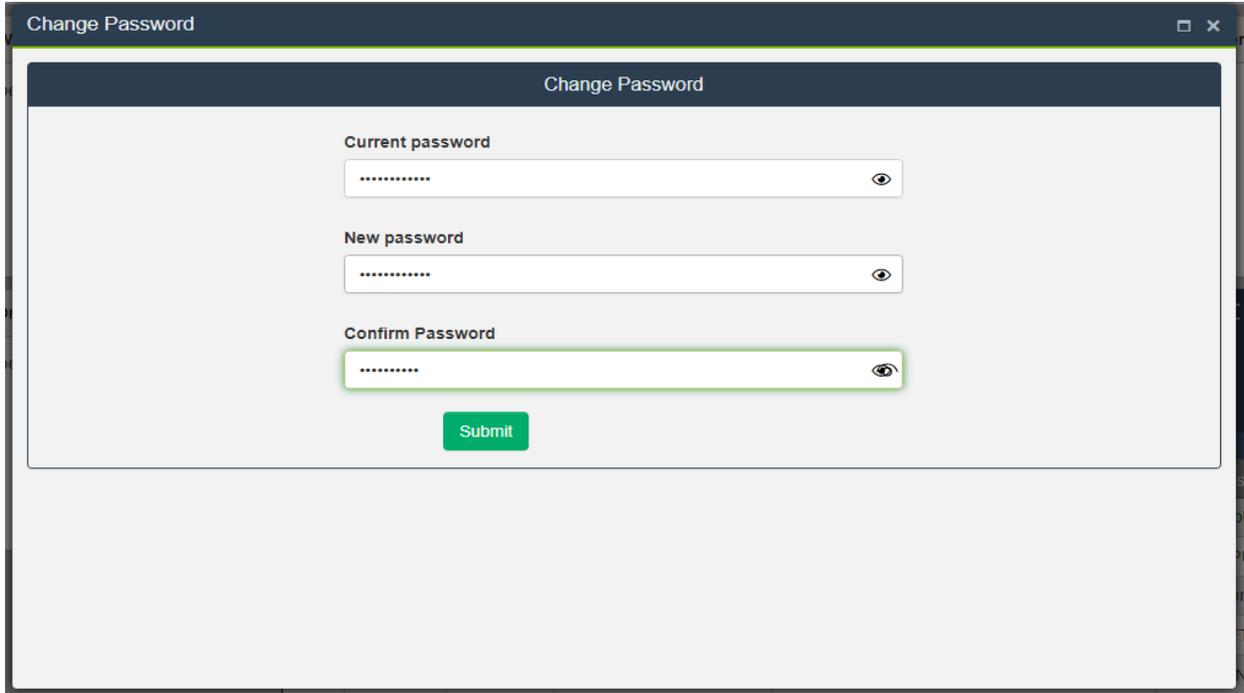

1. Navigate to the **User** drop-down menu on the menu bar.

2. Select **Change Password**.

3. On the Change Password screen, enter your **Current password** in the first field. If you do not have a password, leave this field empty.
4. Enter the **New password** in the second and third fields.
5. Click **Submit** to change your password.

The image shows a web browser window titled "Change Password". The page content is centered and includes a dark blue header with the text "Change Password". Below the header, there are three password input fields, each with a label and a toggle eye icon. The labels are "Current password", "New password", and "Confirm Password". The "Confirm Password" field is highlighted with a green border. Below the fields is a green "Submit" button.
