READYAsset & READYTrak Release Notes July 23 Release

Asset Module Improvements

Title: Asset Status Limit

Detail: The Asset Status field is limited to one character which will facilitate accurate data entry.

Title: Asset Facility View when saving asset

Detail: Adding assets in Facility View now save consistently and accurately.

Purchasing Module Improvements

Title: PO Exporting message clarity

Detail: For customers editing a PO and re-exporting to NAV, the popup message has been rewritten to clarify that there are no additional actions needed by the customer.
