Resolved Issues3

Improvements

- Added a "Closed By" field and filter in **Work Order Finder** for better tracking.
- Added a **System Configuration** to automatically hide inactive assets in the Asset Org Tree unless filtered.
- Added a **System Configuration** to alert users if a Vendor Quote Number was already being used on an open PO.
- We added **new notifications** to alert users when a backorder is filled.
- The **Asset Facility View** now has an auto-refresh option for real-time updates.

- Updated the **Condition Group options** menu to add explicit buttons for "Set Name" and "Set Pattern."

- Added a checkmark to indicate taxable **PO line items** in the Tax column for easy reference.
- We added a **new homepage grid** named “My Department's Open Work Orders” for work orders specific to the user's department.
- Added "Accuracy" and "Adjusted Value" fields to the **Cycle Count Approval** Screen and reports.

Cycle Count Approval
