

LLumin Version 21.9 Release Notes

Disconnected Mobile App

LLumin READYAsset Mobile App

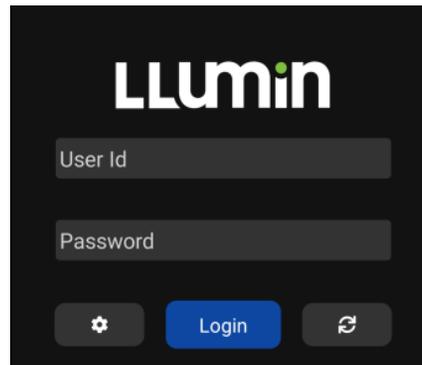

- We are proud to announce the release of the brand new “LLumin READYAsset” mobile app that can be found on the Apple store and Google Play store. A full User Guide will be available soon.

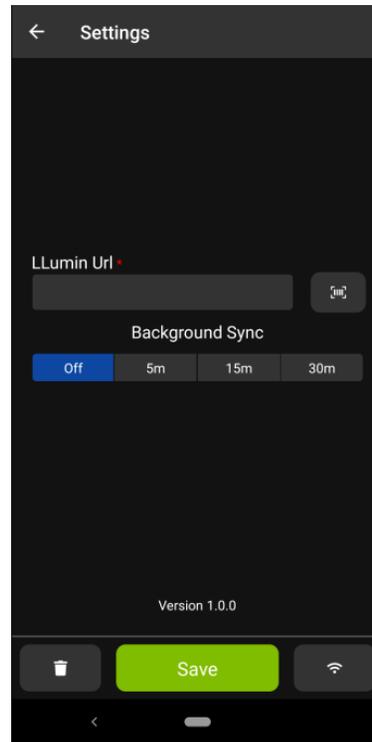

- The “LLumin READYAsset” mobile app should be used in lieu of the previous “LLumin Mobile” mobile app.
- Version 21.9 is required to use the “LLumin READYAsset” mobile app, please reach out to LLumin Support at support@llumin.zendesk.com for assistance in updating your LLumin environment if needed.

LLumin READYAsset configuration and sync

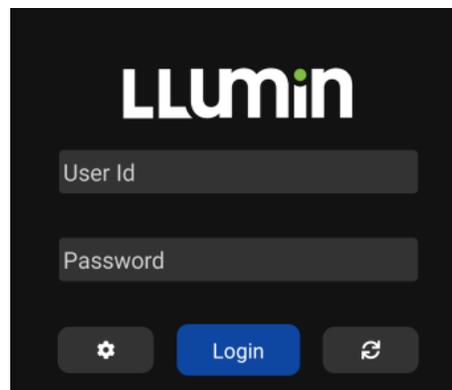

- The configuration screen can be found by opening the LLumin READYAsset mobile app and tapping the gear button on the login page as shown below:

- You can enter the same URL that is used for the core app (For example - <https://apps.llumincloud.com/LLuminDemo>)

- You can sync right from the login screen by clicking the circle arrow as shown below

Minor Changes

- An issue was addressed to correct the Estimate (Hours) field in the Procedure entry screen as shown below:

The screenshot displays a web form titled "2001 - Procedure Details: 2001". It contains several input fields and a radio button group. The "Description" field contains the text "3000 mile oil change". The "Type" section has two radio buttons: "Planned" (which is selected) and "Unplanned". The "Craft" field is a dropdown menu with the text "Please select...". The "Estimate (Hours)" field is a numeric input field containing the value "1.00", and this field is circled in red. There is a small blue information icon to the right of the "Estimate (Hours)" label.

- An issue related to the Signature Data Collection Step type introduced in the latest Chromium version was addressed.
- An issue preventing the Item Type and Class from displaying in the Item Reorder List was addressed.
- Marking a Work Order as Close Not Complete will now count towards Recurring Work triggers based on Completion Date.
- We have added additional support for Spanish language translations.
